

THE mini smoker PELLET TUBE

How to obtain *great success* with THE mini smoker PELLET TUBE:

1. Keep pellets and tube dry. Do not wet or soak pellets at any time.
2. Stainless steel tube edges may be sharp. Use caution to prevent cuts.
3. Protect hands with oven mitts. Tube will get very hot.
4. It is not necessary for THE mini smoker PELLET TUBE to remain in contact with flame.
5. To enable deep penetration of the smoke flavor, lower the flame on your grill and extend cooking time.
6. For cooking times exceeding 3-4 hours, you may need to refill THE mini smoker PELLET TUBE.

Just follow these simple instructions:

1. Fill the tube to within two inches of the top with dry OMWP premium pellets.
2. Insert one fire starter.
3. Ignite fire starter with a torch or match.
4. Carefully lay tube lengthwise on the grilling surface.
5. In a few minutes the tube will begin to smoke.

WE JUST MADE A SMOKER OUT OF YOU!

Explore new and exciting premium pellet flavor blends available from OMWP:

HCO (hickory, cherry, onion)

PEACHY JOE (peach and coffee)

Hickory, Apple, Cherry, Peach with more to come!

For a complete list of premium products from *Ozark* MOUNTAIN WOOD PELLETS LLC, including premium heating pellets, visit our Facebook page or website.

When finished:

1. Pellet coals may continue to burn for hours. Extinguish and dispose of pellets safely.
2. Allow tube to cool. Clean with brush. Store tube when completely cool and dry.
3. Reseal pellet bags. Keep dry. Store away from flame.

*TO AVOID DANGER OF UNEXPECTED FIRE, DO NOT PLACE COALS IN TRASH RECEPTACLE.
KEEP OUT OF REACH OF CHILDREN. PRODUCT IS NOT TO BE INGESTED.*

INGREDIENTS:

Pellets: Natural woods – apple, peach, cherry, hickory, oak, and nothing else!

Fire Starter: Non-toxic – recycled wood chips and wax

Reusable Tube: Stainless steel

The Ozark MOUNTAIN WOOD PELLETS LLC story...

The abundance of sawdust from the woodworking industries throughout the Ozark forest region sparked the idea for this environmentally friendly, sustainable business. The result is this - wood byproducts are transformed into useful, natural products for your enjoyment.
